PROFILE

Psychologist with experience in project and team management, since 2022 I have enthusiastically dedicated myself to programming with a full stack-oriented path. In every context I have worked in I have adopted a critical-analytical approach to problem-solving, focusing on the end user. I am motivated by creating functional and optimized code, and I am looking for new opportunities to grow, progress and proactively contribute to the organizations I work with.

WORK EXPERIENCE

Junior front-end developer
UniPiazza SRL

JULY 2024 - PRESENT

- I have developed new features for the end user in ERP used by clients, built responsive layouts from the mockups provided by the web designer, and I took part in code reviews with the company's CTO.
- Skills: Git, HTML, CSS, JavaScript, TypeScript, React for large-scale projects / teamwork / code review.

Local Service Manager
Cooperativa Sociale Ancora

SEPTEMBER 2021 - PRESENT

- Management and supervision of 95 people assisting disabled students in schools throughout the Padua area, managing communications with staff, school administrations, and public authorities.

Trainer and project planner
LAN association - (Cofounder)
